Unnumbered Section

Lorem ipsum dolor sit amet, consectetur adipiscing elit.

2 Second Section

Lorem ipsum dolor sit amet, consectetur adipiscing elit.
I am from *Dhanusha*, studying computer science in pashchimanchal collage.
In physics, the mass-energy equivalence is stated by the equation $E = mc^2$, discovered in 1905 by Albert Einstein.
 $E = mc^2$ is typeset in a paragraph using inline math mode—as is $E = mc^2$, and so too is $E = mc^2$.
The mass-energy equivalence is described by the famous equation

$$E = mc^2$$

discovered in 1905 by Albert Einstein.
In natural units ($c = 1$), the formula expresses the identity

$$E = m \tag{1}$$

3 Section3

This is the first section.

4 4th Section

It seems like there might be a misunderstanding or a typo in the command syntax. The error message suggests that the command `grv origin git@github.com:RakshaRaut/LatexStyles.git` is not recognized as a valid Git command.

To add a remote repository named `origin` using Oh-My-Zsh Git plugin, you should use the shorthand form directly:
